

JANA GOKUL G

Roll No: 24PW18 | Gender: Male | Date of Birth: 11th April 2007
Languages known: English, Tamil
Email: janagokul2007@gmail.com | Mobile: +91 9498434667
Address: Tiruppur – 641 664

ACADEMIC QUALIFICATION

Currently pursuing 3rd year of 5 year Integrated M.Sc. Software Systems at the Department of Applied Mathematics and Computational Sciences at PSG College of Technology.

SKILL SET

Languages	Python, C, C++, JavaScript
Platform	Linux, Windows
Tools	Git
Databases	Oracle

AREAS OF INTEREST

- Machine Learning
- Data Structures
- Backend Web Development

ACADEMIC RECORD

M.Sc Software Systems 2024–2029

PSG College of Technology, Coimbatore **8.80 CGPA**

• **XII (Higher Secondary, State Board) 2024**

Adharsh Vidhyalaya Matric. Hr. Sec. School, Palladam **97.17%**

• **X (SSLC, State Board) 2022**

Adharsh Vidhyalaya Matric. Hr. Sec. School, Palladam

NON-ACADEMIC PROJECTS

- **FTP Server** – A Python-based application that simulates core FTP commands through a GUI, enabling users to send and receive files seamlessly, with all transferred files stored in a designated folder.
- **Nexus (Nucleus)** – A centralized learning management platform built for the department, inspired by Google Classroom, to streamline communication and resource sharing among students, faculty, and administrators.
 - **Student Dashboard** – Access materials and announcements
 - **Faculty Panel** – Upload materials, communicate with students
 - **Admin Control** – Manage users and platform activity
 - **Authentication System** – Secure role-based login*Tech Stack:* React.js, Node.js + Express.js, PostgreSQL

ACADEMIC PROJECTS

- **Autotrading System** – Allows users to simulate trades, manage a virtual portfolio, and track transaction history — ideal for learning trading and GUI development, built with Python, Tkinter, and the yfinance API.
- **Tale Treasury** – An interactive storytelling website that lets users generate and explore dynamic, AI-crafted stories in real time. It leverages the Mistral machine learning model to understand user prompts and produce coherent, engaging narratives on the fly. Built on the MERN stack, the platform handles both frontend rendering and backend story-generation logic seamlessly. Users can customize genres, characters, and plot directions for a personalized reading experience.

EXTRA-CURRICULAR ACTIVITIES AND ACHIEVEMENTS

- Problems solved on LeetCode, HackerRank websites.
- Organized peer-learning sessions, strengthening teamwork and communication skills.

DECLARATION

I, Jana Gokul, do hereby confirm that the information given above is true to the best of my knowledge.
